Clinical Experience and Specialty Areas

I worked at Community Medical Rehabilitation Center for 5 years and completed both my Clinical Fellowship Year in Speech Language Pathology and Audiology in that setting. This was followed by 11 years providing treatment to children through adults in a local private practice in Missoula. I started my private practice, A Matter of Communication, Inc. in 2007, so that I could follow my personal goals and dreams of providing the highest level of care to my clients and still maintain the balance needed to care for my own family. I provide treatment to children through adults and enjoy every opportunity to help each client and their families develop and achieve their patient/family centered goals. Specialty areas include treatment of Cognitive-Linguistic/Executive Functioning deficits, Augmentative-Alternative Communication needs and Autism Spectrum deficits.

Hobbies and Personal Interests

Skiing, camping, scrapbooking, and generally spending time with family. Born and raised in Montana, I am convinced there is no better place to raise children and explore the beauty of our world than here in Montana.
